

## HVEN ARMCHAIR CUSHION, HERO LEATHER

Designed by Anton Björnsing

Achieve an even better comfort with Hven Armchair Cushion in leather. The cushion has a slip-resistant backside and the foam in the cushion has a medium firmness, which makes it perfect for a long sit-down dinner. Hero leather is a hardwearing yet soft material processed by a water-based aniline dye. With its protective finish, Hero leather is water and dirt repellent, stain resistant and super easy to maintain. On top of that it has a smooth surface with an elegant texture.
