

MISKITO LOUNGE CHAIR

Designed by Herman Studio

Miskito chair is inspired by the Middle American aesthetics, atmosphere and craftsmanship – and the name itself refers to a Spanish dialect used in the rainforest of Nicaragua. However, the design is kept clean in a Scandinavian fashion with no visible nails or fittings, and the cushion is held in place with a small wooden stick behind the backrest. Since the lounge chair is foldable you can easily bring it with you outside when the weather allows it or put it away when you need more space. Miskito's low sitting height and width adds a feeling of groundedness when seated.
